

Press release December 12, 2019

Sensys Gatso Australia receives purchase order worth SEK 52 million

Sensys Gatso Group, a global leader in traffic safety solutions, through its subsidiary Sensys Gatso Australia, has received an additional Purchase order to the value of AUD 8 million, corresponding to SEK 52 million for the supply of mobile camera systems to the Victorian Government.

This order is for additional mobile camera systems to expand the road safety program and is in addition to the quantities ordered in July 2018 and March 2019. The supply of mobile camera systems to the value of AUD 8 million is expected to be completed by early 2021.

Sensys Gatso Australia's Managing Director Enzo Dri comments: *"A focus on supporting the State's road safety objectives using a collaborative approach to design and deploy the mobile enforcement solution has led to an expansion of the systems to be enforcing in the field. The solution has become an enabler to the State's objective to deter speeding via an 'anywhere, anytime' operational model deployed across the entire road network".*
