

Press release February 23, 2018

Sensys Gatso wins procurement contract in Finland

Sensys Gatso, a global leader in traffic safety solutions, has through its partner Oulun Energia Urakointi Oy been notified of a procurement award decision from their customer stating that it has won the procurement contract for new traffic-safety cameras in Finland. This decision may be appealed during a period covering the next 14 days. The contract concerns systems to a value of estimated SEK 30 million.

The evaluation of the tender represents the best quality-price ratio within the tender, and does not represent any commitment from the Finnish customer.

During a period covering the next 14 days, participants to the tender process may submit a request for a re-evaluation of the award decision. Sensys Gatso will make an announcement when the contract has been signed.

"We are looking forward to build a close relationship with our neighbouring country to jointly develop and improve the traffic environment in Finland," said Helena Claesson, Managing Director, Sensys Gatso Sweden AB.
